

Linear Induction Machines with the Opposite Direction Travelling Magnetic Fields for Induction Heating.....	569
<i>Abdullaev Zhahongir O., Konyaev Andrey Yu.</i>	
The Energy Router Based on a Solid-State High-Frequency Transformer	572
<i>Antipin Aleksandr S., Frizen Vasiliy E., Udintcev Vladimir N., Nazarov Sergey L.</i>	
Nonlinear and Unbalanced Load as a Basic Factor of a Neutral Conductor Current.....	580
<i>Belitskiy Anton A., Rastvorova Irina I., Denisova Olga V.</i>	
Stability of Ultra Long Distance AC Power Transmission Lines with Controlled Shunt Compensation Devices	582
<i>Belyaev Andrey N., Izotova Kseniya A., Kashin Ivan V.</i>	
Site Selection of Large-Scale Grid-Connected Solar PV System in Egypt.....	816
<i>Sultan Hamdy M., Kuznetsov Oleg N., Diab Ahmed A. Zaki</i>	
Modelling and Performance Evaluation of the Egyptian National Utility Grid Based on Real Data.....	822
<i>Sultan Hamdy M., Kuznetsov Oleg N., Diab Ahmed A. Zaki</i>	
Limiting Dynamic Loads of Electric Drive with Flexible Couplings and Variable Inertia Moment.....	587
<i>Blagodarov Dmitriy A., Safonov Yuriy M., Grigorian Diana D., Khramshin Vadim R.</i>	
Numerical Simulation of MHD Stirrer for 12 Ton Metallurgical Aggregate.....	590
<i>Bolotin Kirill E., Frizen Vasiliy E., Sokolov Igor V., Bychkov Sergei A.</i>	
Expert System Prototype for Optimal Design of District Heating Systems.....	593
<i>Bratchikov Alexsandr V., Samokhvalov Dmitry V., Belov Alexsandr M., Suldin Ilya Y.</i>	
Investigation of Causes of Dry-Type Transformer On-Load Tap-Changer Insulation.....	596
<i>Brilinskiy Andrey S., Evdokunin Georgy A., Chudny Vladimir S., Mingazov Radmir I., Ponomarev Timofey A.</i>	
Operating Condition Analysis of Flexible AC Transmission Lines with Controlled Series and Shunt Compensation Devices.....	603
<i>Chernyaev Petr V., Khazov Maxim A., Belyaev Andrey N.</i>	
Adaptive Model Predictive Based Load Frequency Control in an Interconnected Power System.....	609
<i>Diab Ahmed A. Zaki, Abd El-Sattar Montaser</i>	
Analysis of the Results of Higher Harmonic Modeling in the Electric Networks of the Republic of Tajikistan with Various Voltage Levels.....	616
<i>Dzhuraev Shokhin D., Tulsky Vladimir N., Valyanskiy Andrey V., Sultan Hamdy M., Inoyatov Bekhruz J.</i>	
Nonstationary Mathematical Model of a Magnetic Arc Blast System.....	627
<i>Frolov Vladimir Ya., Kvashnin Andrey O., Murashov Iurii V.</i>	
Identification of the Protection Parameters of the Local Electrical Network Taking into Account the Detuning of the Inrush Current.....	631
<i>Frolov Vladimir Ya., Neelov Anatoly A., Zhiligitov Ruslan I., Bystrov Aleksandr V.</i>	
Assesment of Reliability of Technical Equipment Complex of Electrical Equipment Parameters Monitoring System with Account Reserve Elements.....	637
<i>Gasparyan Alexander A., Komarova Galina V.</i>	
Modeling of IGBT-Converters by Interconnected Subsystems with Considering of Snubber Circuit and Switching Transistor Time.....	754
<i>Pronin Michael V., Vorontsov Alexey G., Grigoryan Anait S., Mamutov Asan R., Dikun Irina A.</i>	
Analysis of Z-source Inverter Control System For Asynchronous Drive for Gas Compressor.....	642
<i>Ivanchenko Daniil I., Salov Roman A., Yakovleva Emiliya V.</i>	
Transformer Fault Analysis Using Instantaneous Symmetrical Components	647
<i>Ivanchenko Daniil I., Belsky Aleksey A.</i>	
Simulation of Induction Systems of Complex Configurations for Forging Technologies.....	651

Ivanov Alexandr N., Zenkov Alexei E., Bukanin Vladimir A.

Method Limiting Dynamic Loads of Electromechanical Systems of Plate Mill Stand.....	657
<i>Karandaev Alexander S., Gasiyarov Vadim R., Maklakova Ekaterina A., Loginov Boris M., Khramshina Ekaterina A.</i>	
Mathematical Modeling Power-Saving Thyristor-Motor Drives of Switching Design.....	663
<i>Karandaev Alexander S., Karandaeva Olga I., Maklakov Alexander S., Mugalimov Rif G., Khramshina Ekaterina A.</i>	
Integral Indicators Improvement (SAIFI) of Power Supply Reliability in Electric Distribution Systems Based on Reclosers Placement Optimization	669
<i>Karpov Anton I., Akimov Dmitry A.</i>	
Technical and Economic Model for Evaluating Measures to Limit Short-Circuit Currents.....	857
<i>Zagidullin Mihail R., Eroshenko Stanislav A., Egorov Alexander O., Khalyasmaa Alexandra I.</i>	
The Methodology of Analysis of Technical State Assessment of Circuit Breakers	673
<i>Khalyasmaa Alexandra I., Senyuk Mihail. D., Eroshenko Stanislav A., Plyusnina Evgenia I.</i>	
Assessment of the Learning Sample Size and Pattern Impact on the SPS Generation Short-term Forecasting.....	622
<i>Eroshenko Stanislav A., Khalyasmaa Alexandra I.</i>	
Study of Automated No-Pull Control System in the Continuous Mill Train.....	678
<i>Khramshin Vadim R., Shubin Andrey G., Karandaev Alexander S., Baskov Sergey N., Voronin Stanislav S.</i>	
Studying Thermal Dynamic Processes in an Isolated Type Borehole Electrode Heater for High-Viscosity Oil Extraction	684
<i>Kopteva Alexandra V., Malarev Vadim I.</i>	
Mathematical Modelling of Grounding Systems under Impact of Pulse Currents.....	692
<i>Korovkin Nikolay V., Krivosheev Sergey I., Shishiguin Dmitry S., Minevich Tatiana G., Boronin Vitaliy N.</i>	
Urban Substations Transformers Allowed Loading.....	698
<i>Kostin Vladimir N., Minakova Tatyana E.</i>	
Analysis of Power Supply Systems Reliability for Gas Pumping Compressor Stations.....	576
<i>Baburin Sergey V., Kovalchuk Margarita S.</i>	
The Compatibility Verification of Batteries and Battery Chargers to Ripples in Battery Float Charge Mode.....	702
<i>Kupchinov Alexandr D., Smotrov Nickolay N., Gusev Yuri P.</i>	
Development of ESS Virtual Presentation in LabVIEW.....	707
<i>Kusakin Anatolii V., Petrochenkov Anton B., Luzyanin Ivan S.</i>	
Modeling and Intelligent Fault Diagnosis of a Distillation Column.....	688
<i>Korablev Juri A., Loseva Daria M.</i>	
Method to Control the State of IGBT in Voltage Source Inverter.....	711
<i>Lukomsky Yuri A., Bubnov Evgeny A., Matus Konstantin I.</i>	
Grid Power Control by Medium Voltage AC Drives Based on Back-to-Back Converters	634
<i>Gasiyarov Vadim R., Maklakov Alexander S., Lisovski Roman A.</i>	
Frequency and Voltage Stability Assessment of a Power System during Emergency Service States.....	714
<i>Muzik Vaclav, Vajnar Vladimir</i>	
Study and Analysis of Power Quality Situation in Electrical Power Network. Case Study: Lattakia-Syria.....	718
<i>Nasyrov Rinat R., Aljendy Raseel I., Kherbek Tarek</i>	
Adaptive PI Controller of Active Power Filter for Compensation of Harmonics and Voltage Fluctuation Based on Particle Swarm Optimization (PSO).....	725
<i>Nasyrov Rinat R., Aljendy Raseel I., Ahmed A. Zaki Diab</i>	

Comprehensive Comparison between Hybrid Fuzzy-PI and PSO-PI Controllers Based Active Power Filter for Compensation of Harmonics and Reactive Power under Different Load Conditions.....	731
<i>Nasyrov Rinat R., Aljendy Raseel I.</i>	
Modelling of the Mutual Influence of the Parallel AC/DC Circuits on the Hybrid Power Transmission Line	737
<i>Nazarcik Tomas, Muzik Vaclav</i>	
Study of the Operating Modes of the 0.4 kV Main Distribution Network, in Dushanbe City of the Republic of Tajikistan, with Distributed Solar Generation for Power Losses and Power Quality Estimation.....	743
<i>Nazirov Khurshed B., Shvedov Galaktion V., Chorshanbiev Sirojiddin R., Dzhuraev Shokhin D.</i>	
Heating Stage Diagnostics of the Electric Arc Furnace Based on the Data about Harmonic Composition of the Arc Voltage.....	748
<i>Nikolaev Aleksandr A., Tulupov Platon G., Antropova L.I.</i>	
Development of a Controllable Pulsed Power Source for Excitation of a Gas Discharge.....	760
<i>Ramazanov Alexander N., Kostrin Dmitrii K., Vinogradov Maksim L., Lisenkov Alexander A., Uhov Andrey A.</i>	
Optimization of Induction Devices for Aluminium Casting to Electromagnetic Crystallizer.....	765
<i>Rastvorova Irina I., Belitskiy Anton A., Rastvorova Julia V.</i>	
An Algorithm for Prediction of the DC Link Voltage of the VFD During Voltage Sags.....	771
<i>Shklyarskiy Yaroslav E., Dobush Vasilii S., Bardanov Alexey I.</i>	
Research of Electromechanical Characteristics of a Linear Asynchronous Motor by Numerical Methods Taking into Account end Effects.....	776
<i>Shmakov Evgeniy I., Tarchutkin Nikolay V., Smolyanov Ivan A., Sarapulov Fedor N.</i>	
Impact of Solar Generation Connected to 0.4 kV Grid on the Power losses and the Shape Factor of Load Curve.....	781
<i>Shvedov Galaktion V., Chorshanbiev Sirojiddin R., Shvedova Ekaterina V., Nazirov Khurshed B.</i>	
3D Numerical Simulation of the Linear Induction Motor, Considering Magnetic Saturation.....	785
<i>Shvydkiy Evgeniy L., Kolesnichenko Ilya</i>	
Energy Efficiency Improving of Reactive Power Compensation Devices.....	788
<i>Skamyin Aleksandr N., Kovalchuk Margarita S.</i>	
Power-angle Characteristics of Transmission Line with FACTS Devices.....	792
<i>Smolovik Sergey V., Liamov Aleksandr S., Teplukhin Vladislav V., Tupitsina Anna L., Chudny Vladimir S.</i>	
Influences on Performance of the Linear Induction Motor for the Mining Systems with Different Parameters of the Power Source.....	797
<i>Smolyanov Ivan A., Sarapulov Fedor N.</i>	
Shape Optimization of Laboratory Induction Pump.....	801
<i>Smolyanov Ivan A., Kotlan Vaclav, Dolezel Ivo, Karban Pavel</i>	
The Problem of Determining the Position of the Metal in Levitation Melting.....	807
<i>Smolyanov Ivan A., Shmakov Evgeniy I., Tarchutkin Nikolay V.</i>	
Static Load Characteristics Consideration for Determination of Transmission Line Power Capacity.....	811
<i>Solovov Sergey V., Kryltcov Sergei B., Voytyuk Irina N.</i>	
Modeling of Thermal Operating Modes of a Linear Electrical Machine in a Strong Coupled Task.....	828
<i>Tarchutkin Nikolay V., Shmakov Evgeniy I., Smolyanov Ivan A., Sarapulov Fedor N.</i>	
Electromagnetic Calculation of Induction Motor by “ANSYS Maxwell”.....	832
<i>Tikhonova Olga V., Plastun Anatoliy T.</i>	
Study and Analysis of Power Quality of Electric Power System. Case Study: Republic of Tajikistan	837
<i>Tulsky Vladimir N., Inoyatov Bekhruz J., Juraev Shokhin J., Tolba Mohamed A.</i>	

Service Operation of UHVDC Systems with Emphasis on Switching Phenomena.....	844
<i>Vajnar Vladimir, Nazarcik Tomas</i>	
Investigation of Electrical Characteristics of High-Power Electric Arc Furnaces in the Mode of Stabilizing the Primary Current of the Furnace Transformer by Means the Thyristor Regulator in the Intermediate Circuit.....	850
<i>Yakimov Ivan A., Radionov Andrey A., Maklakova Ekaterina A.</i>	
Developing of Electric Power Quality Indicators Evaluation and Monitoring Intellectual System.....	768
<i>Shklyarskiy Andrey Y., Zamyatin Egor O., Rastvorova Yuliya V.</i>
